Statement for syllabi for level 4 ESL classes

**Writing:**
It is very important for you to do your own writing when the teacher asks you to write a paragraph in class or at home. This is the only way you can improve your English.

- Do not copy another student’s paragraph.
- Do not copy a paragraph from a book.
- Do not ask someone to write it for you.

You will not improve your English writing skills if you do that.

**Homework:**
It is also important for you to do your homework on your own at home. Homework is a chance for you to practice English at home and to see if you understand what you studied.

- Do not copy another student’s homework.
- Do not do the homework in class.
- Do not ask someone to do the homework for you.

You will not improve your English skills if you do that.
