The Similarity and Difference Between Seattle and New York

I have lived in Seattle for two years and I think it is very beautiful city. Even though it is expensive to live here. However, if you have education and especially high education, Seattle is the best city to live in. The weather is pleasant even though it rains a lot, but it is not so cold. From my experience people are different and they have different taste in what they like and dislike.

I have also been in New York and New York is very busy city.
He is not. Nevertheless it is also expensive to live in New York. When it comes to education, some of who have high education, and most of people there have talent, in which they became rich. In Seattle you need to have a car. In New York the transport is so great, you do not even need to drive minutes.

Seattle is one of the safest places to live, but in New York is much crime.

In Seattle like very rich people, but in New York live very rich and famous people too. In Seattle is not easy to start your own business.
addition, New York is the garden of opportunity to start your own business.

I enjoyed being in both cities even though they have similarities and differences. I would prefer to live in New York because New York is very lovely city with great energy and warm people, and it is so much to see in New York than in Seattle. Like movies, theaters, and many great shows too.
I grew up in Shenyang and lived there for about 30 years.

My parents and 3 sisters still live there. I love Shenyang very much.

About 3 years ago, I moved to Seattle with my husband. I also enjoy life there, it is a difficult decision to decide where I prefer to live. It was after I compared the similarities and differences between two cities I finally decided to live in Seattle may better for me.

Shenyang and Seattle have a lot in common.

These two cities both have good economy. It is easy to find a better job. After graduated from college, I found a very good job that was high pay and I like it. Same in Shenyang, Seattle's economy not too bad either. I knew if you could find a job, you can easily to support your family. I found a part-time job just after I arrived here about a few months.
In addition, the people in Shenyang and Seattle are friendly.

In Shenyang, you will feel safe, people often help each other.

For instance, I lost my key when I was young. A elder sister helped me waited at outdoor for a few hours until my parents back home. The people in Seattle same in Shenyang are very friendly.

I remember that I just arrived here not too long after.

I couldn't find the way back home. A few of people want to help me that really touched me deeply.

It was when I looked at the differences between the two cities that I think live in Seattle may better for me. Seattle's weather more attract me. In summer, it is not too hot and it is not too cold in winter. On the other hand, Shenyang is very cold in winter and very hot in summer. In addition, I like the natural environment.
in Seattle that are more trees, grasses, rivers. Since Shenyang had seldom green. The most important factor in my decision that I like live in Seattle better is transportation. In Shenyang, which has heavy traffic everyday that made me very tense. On the other hand, Seattle is much better.

In conclusion, after taking everything into consideration, I think I made the right decision. Since good weather, nature environment, and convenient transportation are very important for me, I will probably be happier to live in Seattle.

**HO CHI MINH CITY AND HUE CITY**

Last summer, I had a chance to visit Ho Chi Minh City, the biggest city of my country. Therefore, I had the opportunity to compare my own city, Hue City, with Ho Chi Minh City, which I just traveled. I found that there are some similarities between these two cities. Despite their similarities, they are still different in terms of lifestyle and economy.

Hue City and Ho Chi Minh City are similar to each other in some ways. They're both in the same country, so they have similar culture as well as language. Like Hue City, Ho Chi Minh City has many beautiful places to visit such as "independent building", churches, parks, and so on. Hue City also is a great place to travel because of its quietness and beauty. Hue City has a lot of historic places which are very interesting. Similarly, Ho Chi Minh City is also historic because both of them fought together in many years.
people helped each other because of a same purpose that is protecting our country and preventing enemies, so their people are very strong and patient. Therefore, Hue city is similar to Ho Chi Minh city.

In spite of their similarities, Hue City and Ho Chi Minh City are different. Hue city is very ancient while Ho Chi Minh city is newer, more modern. Ho Chi Minh city has many tall buildings. In contrast, Hue City just has small buildings which are not modern. Unlike Hue city, the economy of Ho Chi Minh city is highly developed. These two cities also have differences in that Hue city is different from Ho Chi Minh city in that its people live in traditional ways of life. Whereas people in Ho Chi Minh city live in open and modern life, people in Hue city still are ancient. Ho Chi Minh city is a city which people follow foreign lifestyle. They don't wear traditional clothes; instead, they usually wear modern and fashionable clothes. But in Hue city, people still wear traditional clothes.
dress "ao dai" when going to school or wedding ceremony. The life in Hue city is quiet and peaceful while this in Ho Chi Minh is more active. It is very still and quiet at night in Hue city. However, Ho Chi Minh city is very noisy and busy at night. Thus, the city is traditional and ancient while Ho Chi Minh is more modern.

In conclusion, Ho Chi Minh city and Hue city have both similarities and differences. Comparing these two cities is very interesting to me because I can find many features of them that I like. When I need a quiet place to relax, I will find Hue City and when I think I like to be busy and active, I will go to Ho Chi Minh city. Both of these cities give balance to me and I love these two cities a lot.
