Building Board - We will talk about this in class.

Glass specific tools will be shown in class, along with a sources of supply list. I want students to be able to try out the tools and see which ones will work best for them before purchasing. There are 2 different types of construction in Stained Glass, and each one requires some different tools. This will be decided in the Design process.

Students are encouraged to talk with the instructor for more information.

Some grinders will be available to use in class.

Please Note: In addition to the Class Supply List indicated above, a \$90 tools and equipment fee will be due to the instructor on the first day of class. In addition, a materials fee of between \$75 to \$100 will be paid to the instructor, depending on the materials selected.
