

Department of Defense Tuition Assistance Programs

North Seattle College is an approved institution in the DoD MOU Program. The college is listed as “North Seattle College” (OPE ID: 00970400) on the participating institutions list at:

<http://www.dodmou.com/institutionlist.aspx>

Please note that DoD tuition assistance programs do not pay for fees, including fees that are bundled with tuition costs. The college charges additional state-mandated fees (building fee and services & activities fees) to every student as a condition of enrollment. Every student is separately charged mandatory fees as voted by students (technology fee, comprehensive fee, fitness center fee, etc.). We understand these fees are not eligible for tuition assistance either.

Use the chart below to determine the correct base tuition rate to request on your Tuition Assistance Voucher.
